1. The following is an examiner's statement of reasons for allowance: Upon a complete review of the entire written record the instant application is in condition for allowance. The prior art cited by Applicants effectively sets forth the state of the art. None of the prior art documents, alone or in combination, shows the invention as claimed. The combined use of positive and negative resists, either in a single resist or as a layer, with a periodic structure formed independent of the optical structure exhibiting a photonic bandgap (optical radiation) with the optical structures formed via electron beam is not shown by the prior art. In view of this, the claims are in condition for allowance.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
